8 EH 20	20		10		6		5							
8 EH 25			12		8		6		5					
8 EH 40					13		10		8			7		6
14 EH 60												7		6
125 EH 750		12												
250 EH 1000				10		8								
250 EH 1250				13		10								
312 EH 1250								6						
375 EH 1500											6			
625 EH 2250													6	
250 EH2L 1000		24	21											

### MACHINE HOLDER CAPACITY - NUMBER OF TYPE SIZE MM

HAND HOLDER CODE NUMBER	1.00	1.59 (1/16")	2.00	2.40 (3/32")	3.00	3.18 (1/8")	4.00	4.76 (3/16")	5.00	6.00	6.35 (1/4")
8 EM 20	20		10		6		5				
E EM 40	40		20		13		10		8	6	
8 EM 60			30		20		15		12	10	
8 EM 80					26		20		16	13	
125 EM 1000		16									
125 EM 2000		32									
250 EM 1000				10		8					
250 EM 2000				21		16					
250EM 3000				32		24					
312 EM 2000								10			
312 EM 3000								16			
375 EM 2000											8
375 EM 3000											12
250 EM2L 1000											

\*In Two Lines : STANDARD SHANK SIZE : 25mm diameter x 35mm long.

\*Remember, special holders can be made to suit specific applications !

### MINISTRESS PUNCHES

Aerocut (Round) Engraving produces a specially designed rounded face for marking impressions with minimum stress at the point of marking.

### SHARP FACED PUNCHES

Sharp Face Characters are engraved with a sharp edge where the tool comes in contact with the work. A sharp face tool penetrates more easily than others.

### DOT STRESS FACED PUNCHES

Dotted punch have specially rounded interrupted faces for low stress. Recommended for high pressure fittings, aircraft and other parts where sharp tools might disturb the molecular structure of the metal.
